

Quick Reference Guide

MRMLSMobile.com gives you flexibility of searching all listings throughout Southern California on your mobile phone. You can search for Residential, Residential Lease, Residential Income, Land, Mobile listings and have the ability to run listing history, agent roster, matrix saved searches and saved contacts while you out of your office.

*Note, your wireless carrier may charge extra for internet usage on your mobile phone. Please ccheck with your wireless provider for rates and additional charges.

Step 1:

On your mobile phone internet browser, go to www.mrmlsmobile.com

Step 2:

Log into MatrixMobile with your User ID, Pin and SafeMLS Password.

Step 3:

Click on the different **Property Types** links to search for listings. Or you can search for agent contact information by clicking **Agent Roster**. Or click on **Change Type History** to search for New Listings, Back on Market, Back Up Offer, Sold listings, etc.

Note: you can search by an property Address by clicking on any of the property type links.

Step 4:

- **Save Searches** link allows you to run any save searches you have saved in Matrix
- Click on **Contacts** to view any of your saved contacts stored in Matrix
- The **Settings** link allows you to set photo or map display on all property listings

Step 5:

Lastly, you can search by the **Multiple Listing Number** to find the listing information.

Note: Use a comma (,) between each ML# to search for multiple properties.
