

## Glowing Search Fields

Glowing Search fields can be seen after you have made a search criteria selection. The field changes to a light blue. This is especially helpful because it will let you know you have made a selection or have something entered in that search field.

1. For example, the Status, City, Bedrooms, Bath Total and Zip Code are highlighted in light blue. This indicates that a selection or data has been entered into that field. Search field

The screenshot displays a real estate search interface with various filters. The following fields are highlighted in light blue, indicating they have been selected or entered:

- Status:** Active
- City:** Arcadia
- Bedrooms:** 3+
- Baths Total:** 2+
- Zip Code:** 91107

Other visible search criteria include:

- Area:** 6 - Bixby, Bixby Knolls, Los Cerrito
- Type:** Single Family Residence
- County:** Los Angeles
- Cooling:** Central
- Heating:** Baseboard

The interface also includes a search bar at the top with options for 'Show Agent 1 Line', 'Display 10 per page', and buttons for 'Set Default (Reset)', 'Criteria', 'Count', 'Search', and 'Clear'.

### Note:

- You can also change the search results layout to **Show** different displays. For example, from the **Show** drop-down menu select a different display (thumbnail, short, full, customer display, etc.)
- You can select up to 100 listings to display per page.
- Click **Set Default** to save the search criteria each time you use the search page. Or click **Restore Default** to return the previous default search criteria.
- Click **Show Criteria** to view your search criteria.
- You can view a count of how many listings are returned from your search by clicking on **Count**.
- To remove all your search criteria, click **Clear**.
- If you cannot find a search field, you may need to add by clicking the **Click here to add or remove other search field** link.
- Click the question mark (?) for help.
- Click **Map Search** link to select listings base on a map search.
